

DURO-TANK™

*Moving Ahead
With Technology*

Stainless-Steel Recirculating System

100% Air-operated System

*Cleans Inks from Frames
Using Biodegradable Chemistry*

Reduces Flammable Chemical Consumption by 80%

**20-, 40-, and 80-gallon
Tanks Available**

ADVANTAGES

- Stainless steel construction for long life
- Permanent stainless steel filters can be removed and easily cleaned for reuse
- Remove ink or coatings from frames using non-flammable, biodegradable chemistry
- 20-, 40-, or 80-gal. holding tanks are available
- Includes scrub brush and wand for cleaning screens
- Tank can be used with any washout sink and biodegradable chemistry
- Can be used with any wash stand

The Duro-Tank™ is a stainless-steel recirculating system designed for use with washout sinks. With the Duro-Tank system, biodegradable chemistry is applied directly to screens and then allowed to drain back into the tank, where the chemistry is filtered and recirculated for extended use. As a result, the Duro-Tank reduces the amount of flammable chemicals required to clean screens by 80% or more!

The 100% air-operated system features a permanent filter assembly with removable filter screens for easy maintenance. A wand and scrub brush are also included for efficient chemical application and ink removal. The DTSS-20 tank holds approximately 20 gallons (75 liters) of solvent, The DTSS-40 offers a capacity of 40 gallons (150 liters); an 80-gallon tank is also available.

Ideally paired with A.W.T.'s biodegradable Safe-T-Wash,™ the Duro-Tank can also be combined with any of A.W.T.'s Kleen-View™ Washout Sinks.

Manufactured by

DURO-TANK™ STAINLESS-STEEL RECIRCULATING SYSTEM

20-gallon Tank

40-gallon Tank

80-gallon Tank

Standard Features

- All stainless steel construction
- Unit can be used with any washout stand
- Scrub brush and wand included

Options & Accessories

- 5-Ft. Replacement Wand/Handle
- Replacement Scrub Brush
- Additional Stainless-Steel Filters
- Solvent Use Upgrade

Specifications

CAT. NO.	DESCRIPTION
DTSS-20*	20-Gallon Tank Comes with permanent filter assembly, cover, wand & scrub brush
DTSS-40*	40-Gallon Tank Comes with permanent filter assembly, cover, wand & scrub brush
DTSS-80*	80-Gallon Tank Comes with permanent filter assembly, cover, wand & scrub brush

A.W.T. will test our screen wash on your inks. Please send samples.

*Screen wash chemicals do not necessarily remove all types of inks. Some inks may be difficult to remove. Always test the inks to be removed from the screen.

Custom sizes available - call for details.

Drain plug simplifies periodic changes of the cleaning solution.

Your Complete Manufacturing Source for Screen Printing Equipment, Supplies & Parts

THE A.W.T. WORLD TRADE GROUP

Combining knowledge, expertise, creativity, outstanding engineering, quality and value to provide the finest equipment, parts, supplies, remanufacturing services and technical support to the screen printing industry.

The A.W.T. World Trade Group was formed in 2002 when A.W.T. World Trade, Inc. and Graphic Parts International, Inc. purchased American M&M Screen Printing Equipment.

With more than 30 years of experience in both setting up and serving industrial, electronic, graphics and textile shops, The A.W.T. World Trade Group is a screen printer's complete manufacturing source for pre-press and printing equipment, supplies, parts and remanufactured products.

Experience has shown that when printers use a single manufacturing source, they reduce compatibility problems between equipment lines and supplies. The A.W.T. World Trade Group designs and develops complete systems to work efficiently and economically together – reducing printing problems, production costs, and downtime while improving profitability.

The A.W.T. World Trade Group's technical sales staff will help you choose the right system for your company's needs. Our industry experts in both service and technical support will quickly and confidently help you through the installation and setup process.
